NAMIBIA 2012 BIG GAME SAFARI'S

LOCATION and HUNTING AREA

Our Big Game Safaris are conducted in Northeastern Namibia in the Eastern Caprivi. These concessions are managed by official conservancies. The high degree of movement from the National Parks in Botswana into this area makes these concessions some of the very best in southern Africa for numbers and trophy quality for both Elephant and Cape buffalo...two of Africa's most coveted trophies. Limited quotas of various plains game species are also available on these Big 5 Safaris. Camp may be accessed by air charter, or for the more adventurous by an eleven hour drive from the Windhoek International Airport.

These concessions have some of the very best wildlife habitat Namibia has to offer. Due to the light hunting pressure, trophy quality is outstanding, and the available game species are relaxed, adhering for the most part to their normal patterns, making spot and stalk an extremely effective hunting method. Clients will enjoy a beautiful secluded camp with clean, private guest quarters, each with ample room for two traveling companions, warm comfortable beds and bath on suite, including hot showers and flush toilets. Solar energy, electric generators or commercial utilities power electric lighting and appliances. With the proper converter, video camera and other batteries can be charged in camp each evening.

PRICING: Special Engelbrecht Safaris 2012 Daily Rates and Trophy Fees are provided below.

Keeping the number of clients to a minimum enables ENGELBRECHT SAFARIS to maintain superior quality of both the animals you hunt, and the African experience you enjoy while visiting the Dark Continent. Namibia is a very popular destination for our clients.

If a Namibian Big Game safari is in your 2012/2013 plans it is in your best interest to book your hunt well in advance.
